Oxford-Nottingham EPSRC and MRC Centre for Doctoral Training in Biomedical Imaging

An exciting collaboration between the Universities of Oxford and Nottingham

A four-year programme of research and training combines world-leading expertise in all aspects of cellular and clinical biomedical imaging across both institutions to create the next generation of industrial, healthcare and academic leaders in this vital field of research.

We invite applications from students with a wide range of academic backgrounds, including Engineering, Biochemistry, Physics, Chemistry, Statistics, Mathematics and Computing who have received, or are on target to achieve, a strong 2:1 degree or above.

Fully funded studentships are available (RCUK eligibility criteria apply) for the forthcoming academic year (October 2018 entry).

Main application deadlines are noon on 17 November 2017 and noon on 19 January 2018.
